

- (A) -Tighten radii on southwest corner to reduce pedestrian crossing distance and slow turning vehicles  
-Install marked crosswalks on Coolidge Avenue
- (B) -Convert existing crosswalk to ladder style crosswalk
- (C) -Install bulbout on southwest corner of the intersection
- (D) -Install bulbouts at Boston Avenue
- (E) -Extend pick-up/drop-off area by 90 feet south towards School Street  
-Update signs and curb painting for existing pick-up/drop-off area  
-Establish a student valet parking program, supervised by adults, to assist with pick-up/drop-off activities
- (F) -Install bulbouts on Pleasant Street
- (G) -Evaluate the relocation of bus stops north of Pleasant Street to separate them from vehicles
- (H) -Replace No Right Turn sign

## KEY

-  Bulbout
-  Parking Improvement
-  Crossing Improvement

## General Improvements:

- Review street lighting and replace bulbs as needed
- Repaint all marked crosswalks
- Review all signs, striping, and markings for conformity with MUTCD and visibility
