

Searles Elementary Safe Routes to School Improvement Plan

Site Assessment held February 2016

- 1

**Rear Parking Lot**  
Establish staff parking in rear (western) parking lot.  
Install sidewalk and curb ramps and establish student loading zone.
- 2

**G Street Sidewalk**  
Increase sidewalk width on G St bordering campus (to northwest).
- 3

**G Street Loading Zone**  
Convert former School Bus Loading Zone to Student Loading Zone on G St; establish smaller loading zone for Special Education buses.  
  
Update curb striping and signage accordingly.
- 4

**G Street School Crossing Sign**  
Update School Crossing sign assemblies to School Warning Assembly A.
- 6

**Main Parking Lot**  
Study potential student bike/route through main parking lot.
- 7

**Colgate Drive and G Street Intersection**  
-Consider installing curb extension on northern corners.  
Would require corresponding drainage improvements and consideration of cost and design complications.  
  
-Install advance stop bars at crosswalks.
- 8

**Colgate Drive and Sherman Drive**  
Install advance stop bars on northern and western legs of intersection.
- 9

**Sherman Drive and 15th Street**  
Install advance stop bars on western and southeastern legs of intersection.
- 10

**G Street and 15th Street**  
Install advance stop bars in advance of existing crosswalks

**Non-Infrastructure Recommendation**  
Implement Helmet Giveaway Program.
